

Thank You for Paying Your Taxes!

Demand that Millionaires Start Paying Their Fair Share Too!

California (and the nation) have been faced with budget deficits for the last several years. In California alone, we faced a \$26.6 billion deficit in 2011 alone, with deficits forecasted for years to come. We have suffered huge cuts in every program – from education to universities, programs serving seniors and people with disabilities, public safety and childcare. Yet those benefitting most from our economy continue to pay a smaller percentage of their incomes in taxes, due to years of tax cuts and loopholes.

This has to stop. We must ask everyone to pay their fair share – including the wealthiest individuals and corporations. If you agree, we urge you to sign the petition to raise the tax on the highest income earners and vote for it on the November 2012 Ballot. For more information go to www.protectschoolsandpublicsafety.com. And thank you for paying your fair share of taxes.
